

Cash 101 Board Game

Do you have clients who want to become savvy investors or expand their knowledge base around financial matters? Cash 101 Board Game, created by Robert Kiyosaki, author of *Rich Dad Poor Dad*, may be just the thing!

The game allows you to experiment with investments, buy real estate, and learn how to read financial statements. Put into action the principles in Kiyosaki's book. Make your money work for you—not you working for your money.

Can you imagine having Cash 101 game nights? What a fun way to build a niche community. At the very least it's a great recommendation for clients wanting to grow in that area. Who says learning about accounting, finance, and investing can't be fun?

Free the Genie

As coaches, our role is to keep our clients moving towards a vision that we helped them clarify. We know all too well that clients will occasionally stall or become completely stuck. That's where "Free The Genie" comes in. "Free The Genie" is a creative thinking tool by the award-winning product innovation firm, Idea Champions.

This deck of cards playfully exposes your client to a variety of problem-solving options. Once the issue is clearly defined, he or she can draw a card from one of five categories: Attend, Intend, Suspend, Extend, or Connect. Each card offers a way to shift one's perspective, generate new insights, and head down a new path. The cards come with a users' guide and a downloadable leaders guide.

You will find a free downsized version online at www.idea-champions.com so you can take it for a test run. A perfect tool to facilitate brainstorming and problem-solving for entrepreneurs, small business owners and corporate teams.
